) SS
COUNTY OF DELAWARE)

Before me, the undersigned notary public, this day personally appeared Linda J. Marchione, Senior Paralegal at Lyondell Chemical Company ("Lyondell"), located at 3801 West Chester Pike, Newtown Square, Pennsylvania, to me known, who being duly sworn according to law deposes and says that she had attached a copy of the cited reference entitled "*Principles of Polymerization*" by George Odian, pages 250-251, to the original Amendment After Final relating to U.S. Patent Application Number 09/934,878 that was prepared and signed for by the Attorney for the Applicants, Shao-Hua Guo, on September 25, 2003.

The affiant attested that she stapled the copy of the cited reference to the original Amendment After Final and placed these documents in an envelope and mailed them to the Commissioner for Patents, Mail Stop AE, P.O. Box 1450, Alexandria, VA 22313-1450, on September 25, 2003. She further attested that before she mailed these documents to the Commissioner for Patents, she had made a copy of these documents and stapled them together and placed them in the attorney's working file on September 25, 2003. Upon later inspection of the attorney's working file, she attested that these referenced documents had not been changed or altered in any way since she had stapled the cited reference to the copy of the Amendment After Final on September 25, 2003.
